9. ☐ Other _____.

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Thomas Fairhall on September 19, 2005.

The application has been amended as follows:

In claim 7, line 1, please insert —of claim 1—after “biosensor”.

In claim 10, line 3, please insert a period, —. —after “defect”.

In claim 15, line 7, please delete “comprise”.

2. The following is an examiner's statement of reasons for allowance: the prior art of record does not disclose or reasonably suggest a photonic crystal sensor comprising a defect wherein the regular repeating pattern of said raised portion separated by adjacent voids is modified such that at the defect said material having a relatively high index of refraction n_1 occupies the space of one or more voids. Grot et al. discloses a photonic crystal sensor comprising a defect, however, the defect of Grot et al. is a hole, and not a region occupied by said material having a relatively high index of refraction n_1 . Furthermore, modifying the defect of Grot et al. to be occupied by said material of relatively high refractive index would destroy the principle of operation of Grot et al. since Grot et al. utilizes the defect or hole to receive a volume of material to be sensed.

Art Unit: 2874

Therefore, there is no suggestion in the prior art of record to occupy the void of Grot et al. with said material having a relatively high index of refraction n1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sarah Song whose telephone number is 571-272-2359. The examiner can normally be reached on M-Th 7:30am - 6:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rodney Bovernick can be reached on 571-272-2344. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
